### **Guide for Flood Victims Produced by United Way of Broome County's 2-1-1 Service**

(Vestal, NY)— A Flood Guide for Broome County, has been produced by the local 2-1-1 service in cooperation with Broome County Community Organizations Active in Disaster (BCCOAD) and is now available on the front page of the United Way of Broome County website (<http://unitedwaybroome.org>) and the 2-1-1 website (<http://firstcallforhelp.info>) on its disaster resources page. In both locations it is a PDF file, so the entire document can be downloaded or individual pages can be printed from it.

The guide includes general flood information, such as information about local disaster recovery centers and flood relief centers; information and referral sources; safety issues; basic needs; employment issues; health care and medical needs; mental health counseling; government services and officials; legal counseling; animal shelters; restoration; and funding resources.
