

UNITED WAY OF BROOME COUNTY

Agency Name: Broome County Urban League, Inc.

Program Name: After School Enrichment Program

Program Success Story:

“Ashley” has been coming to the Urban League every day after school for the past three years. Being the head of the household, her mother works full-time and has shown her appreciation for the support she has received in maintaining a healthy, safe, and intellectually stimulating environment for her child. The academic support Ashley has been provided at the Urban League has prepared her for the challenges she has been given in school. From mastering multiplication, to learning about different cultures and phrases in other languages, Ashley has been exposed to new and interesting concepts and ideas. Fostering strong relationships with members of our community, we have often invited college students from the area to share their knowledge and skills with our youth at the Urban League.
